

VANQUISH THE ENERGY VAMPIRES

WITH LUKE CAMPBELL, MA

What do we do when it seems as though others suck the life out of a working relationship? How do we respond in healthy ways rather than get pulled into their difficult behaviors and actions? This presentation will discuss what makes healthy professional relationships, how to identify characteristics and traits of the four types of Emotional Vampires (EV), and will provide tips for offsetting the negative impacts of their actions. The training is beneficial for all staff - leadership and teams.
